1. The vehicle configuration information is only applicable to the corresponding models produced within a certain production month, and the vehicle configuration information produced during different production months might be different. The battery range and charging time are for reference only, and vary depending on the actual circumstances. The configuration table is only for reference, and the actual situation should be based on the actual vehicles sold by the sales store. XPENG has the right to explain and reserve the right to change technical parameters, configuration and other product information within the scope enforced by laws and regulations.

2. Unless otherwise noted, the performance data in the table are tested under standard configuration.

3. XPILOT intelligent driving system is a driving assistance function and cannot cope with all traffic, weather and road conditions. The driver must always pay attention to observe the current traffic situation. If the automatic assist driving system fails to provide proper steering assistance or maintain proper distance and speed, the driver must actively intervene. Please read all information about XPILOT in the driver manual to better understand the limitations of this system. The driver should be aware of these restrictions before using XPILOT. Please be cautious during complex and changeable traffic conditions, icy and snowy roads, wet and slippery weather, stagnant or muddy roads, poor visibility, rugged mountain roads, or highway exits.

4. The acceleration data is obtained through tests and the actual 0-100 acceleration capability may vary due to different driving skills, remaining capacities, battery temperatures, road conditions, etc.

5. The actual range may differ from the calculated WLTP range, depending on the driver's driving style, speed, number of occupants, vehicle load, outdoor temperature, air conditioner use, terrain, vehicle condition, etc.

6. Actual DC charging time may vary depending on a variety of factors, including vehicle condition, ambient temperature, the initial state of charge, battery condition, and charger type.

7. Intelligent parking Assist and Remote parking assist disclaimer : Intelligent parking Assist and Remote parking assist must be used in full compliance with all applicable New Zealand road rules. The driver remains responsible for the safe and lawful operation of the vehicle at all times. Feature availability may vary depending on conditions and may not be permitted for use on public roads. XPENG accepts no liability for any misuse or unlawful operation of this feature.
